

Submitter: Linda Garland
On Behalf Of: SB 704
Committee: Senate Committee On Health Care
Measure: SB704

Without hesitation I fully support SB 704.

Presidents and elected Legislators have kicked around this part of "The Commons" for decades. It's long overdue.

I am retired and enjoy my Medicare insurance and it works well for me. At the same time, I am so grateful for this benefit, I prioritize my own Healthcare.

As an individual, healthy foods and regular exercise and understanding mental health needs are also important and our citizens must take responsibility for their health. We must continue to educate population in all manners that support good mental and physical health.
