

Submitter: Robert Hart
On Behalf Of:
Committee: House Committee On Rules
Measure: HB2585

I strongly support the passage of HB 2585 that would end Automatic Voter Registration and substitute allowing persons to register at the Department of Motor Vehicles. I personally know of instances where people have gone to DMV to conduct business regarding their drivers license and find out that their voter registration had changed without their knowledge and prevented them from voting for their choices in primary elections. This disenfranchisement of voting discourages people from voting and questions the integrity of the voting system. By instituting a program where persons must take a positive action to register to vote or change voter registration, the errors that are occurring would be stopped. I ask that you would approve this change to state law and restore a better voting system.
