Measure: HB2585

Dear Lawmakers,

I urge you to vote YES on HB-2585. There should not be automatic voter registration which not only creates a multitude of opportunities for voter fraud, but also allows lazy unengaged citizens and even non citizens to participate in elections when they are not engaged and following what is happening with the candidates that they are voting for. Voting is serious and has serious life altering consequences for the direction of our local and national direction of the country and our communities. A serious voter will take the time to choose to become engaged through their own efforts and will take pride in that and hopefully be doing their homework on what they are voting for. We need to rid the voting system of any and all chances to abuse it and commit fraud and make sure that the people who are voting are serious, informed, and engaged US citizens and HB-2585 will do just that.
