

Submitter: Jim Kilinsky
On Behalf Of: Zero Plastic Waste McMinnville
Committee: Senate Committee On Energy and Environment
Measure: SB543

I am deeply concerned about plastic pollution. 30 Rivers in Oregon have been studied revealing plastic pollution in all. When these containers are reused/reheated we ingest harmful chemicals into our bodies. Some of these materials won't breakdown in landfills for 200 years. We must do all we can to stop the use of single use plastic
