

Submitter: Peter Ware

On Behalf  
Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure: HB2601

Dear Committee Members,

As a PERS member and 30 year retired teacher in the State of Oregon I am urging you to support this measure. There is every reason for the Treasurer to be totally transparent and every reason to begin the process of disinvestment from fossil fuels. These investments are very poor choices for the environmental future of our planet and they have shown to be poor choices for the PERS members in terms of the return on investment.

Please support this bill for the sake of all Oregonians,

Thanks you, Peter Ware
