

Submitter: Aaron Starr
On Behalf Of:
Committee: House Committee On Rules
Measure: HB2107

Why is OHA involved with elections? This sounds like a HIPPA violation in waiting. This bill is nothing more than a 'ruling class' attempt to get a list of low-information voters so they can harvest votes in the future. They want a 'ID card' so they can track their location, then come election time, they harvest-away and influence voters. Once a prisoner serves their time to the People of Oregon, and they are released, they are now no different than any other citizen who chooses to participate in the election process. It's disgusting this bill was even introduced - why does the legislature work on lowering inflation, securing our borders from dangerous drug and human trafficking?
