Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: SB5518

Over the last five years, the State of Oregon Library, its' staff and resources have become an invaluable cornerstone for me to develop myself professionally, in order to better serve Oregonians, my business partners and the world at large. In every interaction I have had with the staff, I have been edified, encouraged, educated and supported in my desire to provide excellent service to the persons I am accountable to. I understand that the State of Oregon Library could do so much more to assist us through the lens of equitable topics, resources and learning with an increase in funds. I know that the State of Oregon Library needs additional staff to fully meet the demands of the professionals who seek assistance and who serve Oregonian communities every day. Thus needing increased funding to continue their ability to provide excellent customer service, training and obtain modern resources. Please consider a generous increase in the State of Oregon Library budget, so that they can meet the increased demands they are facing, in order to properly equip, and serve public servants across the state. Thank you.
