

Submitter: Randie Ray  
On Behalf Of: myself  
Committee: House Committee On Rules  
Measure: HB2107

Along with the bill that passed the motor voter rule, this bill will also inflate the voter rolls with people who are negligent in their duties and have no intention of voting who are only on the rolls due to neglecting to opt out of the auto registration! This leaves a very wide open margin for fraudulent votes to be cast! Every avenue for possible voter fraud needs to be closed immediately, but this bill with literally put a huge neon sign up making voter fraud that much easier. This bill should have been rejected immediately as being utterly irresponsible. Vote NO!! on this bill.

Thank you,  
Sincerely, Randie Ray
