Committee: Senate Committee On Health Care

Measure: SB704

Healthcare is a basic human need. Public health insurance is extremely important for my family.

As a farmer and community activist (nonprofit founder) I cannot afford to have healthcare for my family if I do not get OHP. Too many families I know are stuck living under the OHP income threshold because they would not be able to afford to buy insurance out of pocket if they made more money.

Please pass a public option for health insurance.

Thank you.
