

Submitter: Amber Birnley

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

As a member of the LGBT community, I am in support of HB2458. Conversion therapy is not effective and EXTREMELY harmful too LGBT people. People should not have too hide who they are NOR should they be forced too become something they aren't. Let people make that decision on their own and please ban Conversion therapy.
