

Submitter: Caitlin Reasor

On Behalf Of: LGBTQIA community

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

As a member of the LGBTQIA+ community I am in support of HB2458. Conversion therapy is cruel and unethical and evidence shows it only leads to higher depression and suicide rates. Banning this fraudulent form of "therapy" shows that Oregon actually cares about the quality of life of marginalized people.
