

Submitter: Bill Davis

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2601

State Treasurer Read,

I am submitting this testimony requesting that Oregon start withdrawing investment from fossil fuel companies to minimize the impact of climate change, support a transition to cleaner energy and improve long term investment returns as the carbon business is unlikely to replicate it's return history as we transition to cleaner energy sources.

Thanks for your consideration.
