

Submitter: Alex Minor

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I am writing to show support of this bill to ban conversion therapy for LGBTQ identifying people. Conversion therapy only causes harm. Conversion therapy only stands to hurt and confuse people, particularly young people who are already struggling with their families and their identities. Conversion therapy is outdated, proven to be inconsequential, and a bizarre form of treatment. There is no reason for it to still exist let alone be used to treat people who do not need treatment. Conversion therapy is a fallacy. It is unethical and unnecessary. It needs to end.
