

Submitter: James Jackman

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I as a former Gay identifying man.

Seeking professional counseling was a huge part of my journey dealing with my unwanted same sex attractions. Today as a result of that counseling that I received in the late 1990's I no longer deal with SSA (same sex attraction). I am happily married to my wife with three children.

Thank you
