Submitter: Eleanor Wynn

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

Health care should be a human right in
an advanced industrial democracy. People who have no access get sicker and can make otters sick. Health care in the US is profit-oriented and way too costly, putting it out of reach for most people to self-pay. Many are bankrupted after an accident or major illness. This wrong. Can we set an example to other states by showing compassion and respect for our fellow citizens who don't have access? Thank you!

Eleanor Wynn
