

Submitter: Nisha Gomez

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

Hello,

to those reading this, I urge upon you to support this bill. Conversion Therapy is an unethical and inhumane practice. Trans children, adults, folks in general need love and care to have the freedom to explore who they are, free from religious shame and conservative ideology.

Freedom is the American dream is it not? And to take that away, to only bring hate and shame, is not the True American dream.

The American dream is letting people experience life, letting everyone get to find who they are.

The rate of which Conversion Therapy leads to suicide should have deemed this practice inhumane.

So let's join together and make sure that we lead to happier, healthier lives, and true love for our neighbors by Banning Conversion Therapy.

Thank you.
