

Submitter: Terra Marzano

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

The harms of conversion therapy are well-documented; it is a dangerous and unethical practice. As a therapist living and practicing in Oregon with many years of experience in crisis-based work, I have seen first-hand the terror it inflicts on individuals and their families. Banning conversion therapy is the proper way to protect the sacred and life-saving work of psychotherapy and mental health treatment.
