Committee: House Committee On Rules
Measure: HB2107

I oppose HB 2107. Voter registration should be individual and intentional by the individual, not automatically granted upon release from a correctional institution via OHA submission of that individual personal records to the secretary of state. This is a privacy violation, for OHA to submit any information to the secretary of state without consent of the individual, and it removes individual autonomy to seek voter registration independently. This bill is absurd to say the least and has no rationality whatsoever.
