

Submitter: Frances Sheehan  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB2585

By supporting HB 2585 which eliminates automatic voter registration through Oregon motor voter and reestablishes registration practices prior to automatic motor voter. Automatic motor voter registration can lead to major fraud and inaccurate voter rolls. The OR DMV is unable to keep up with basic DMV functions and it would be irresponsible to add another program. To register or not should be the responsibility of each eligible individual, NOT the state. Few states have automatic motor voter procedures because it is not best practice. I ask our elected officials to SUPPORT HOUSE BILL 2585. Thank you.
