

Submitter: A M

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

Conversion therapy is a societal evil that we have tolerated for too long. It is unethical, ineffective, and results in breaking children and often causing them to want to harm or kill themselves. It is akin to torture in the name of religion. I am in support of this bill—please do the right thing and stop listening to a loud minority of hateful people.
