

Submitter: Heather Gray

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2601

NO on HB 2601. There is no rational, logical, scientific basis for such things, and this will hurt Oregonians. This will negatively impact the pension fund and will reverse all the hard work in recouping the fund over the years. It will put the savings of hard-working Oregonians at risk, and it will leave taxpayers on the hook if this activist investment strategy is pursued! Individual Oregonians are already over-taxed.
