

Submitter: Rich and Brook Remington
On Behalf Of: oregon wheat growers league
Committee: House Committee On Climate, Energy, and Environment
Measure: HB3158

Oregon farmers are already subjected to many taxes and clean energy regulations. Newer tractors, combines, pickups and trucks have tier 4 emission devices. which adds to cost of purchase, operation and repair.

Oregon voters have denied the inclusion of a sales tax numerous times, this is a back door attempt at getting around the voters will and will contribute to even tighter margins for a critical business in the state.

I could add more but am tired of fighting the same old fight. I urge you to vote no on this bill.
