Measure: SB779

This is an unattainable and unfair bill aimed at reducing the number of safety officers. We all see what this is and it's purpose-less public safety, more restrictions on law enforcement!! This must not pass!!!!

It is difficult enough for LE to hire, retain, recruit officers right now! And with the current funding and salaries, I find it hilarious to think that a college graduate would waste their time applying for beg level positions. They already risk their lives for too little pay, now you want to them to pay for an education to get paid little for a job that puts their lives in peril.

LEAVE LAW ENFORCEMENT ALONE!
