

Submitter: Robert286 Egner
On Behalf Of:
Committee: House Committee On Rules
Measure: HB2585

I am in absolute support of this bill. Automatically registering especially youth to vote without properly educating them on the process of voting is an absolute failure of our system. Yes once of age they have the right to vote and I support that right. But voting needs to be taken seriously by those that truly support our Constitutional Republic and understand that voting is important.

Going through the process of proper registration ensures they are more prepared for the burden rather than simply signing them up and throwing a ballot at them.

I strong believe that an educated and prepared voter is far more valuable than simple numbers of voters that may or may not participate.

I also believe we would have less faulty voters or non legal voters if they were forced to go through the proper registration channels.

Please approve this bill and let's get back to proper voter registration

Thank you
Robert Egner
