

Submitter: Sheryl Ohlsen

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2994

As an Oregon family with a hearing impaired grandson, we found that the insurance that went through a third party agency did not have to cover our grandsons hearing aides, this came as a surprised based on the law.

Third party agencies should have to go by all be same laws that the insurance companies have to follow. All loop holes need to be removed to opt out of certain things that are covered by law. Our kids deserve full coverage without having to fight.

Thank you
