

Submitter: Shea Leibow

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2601

Thank you for the opportunity to comment on HB 2601. My name is Shea Leibow, and I am an organizer with CODEPINK, a national feminist antiwar group. I am writing in strong support of HB 2601: The Treasury Investment and Climate Protection Act because I believe that fossil fuel investments are deeply harmful to our planet, and also a bad long term investment for our communities. I am appalled that the Oregon State Treasury (OST) is propping up fossil fuels and climate chaos with at least \$5.3 B, and I believe that, by passing HB 2601, Oregon can follow through in being a leader in the transition to a green economy. To ensure OST to act responsibly, please support HB 2601, the Treasury Investment and Climate Protection Act (TICPA) co-sponsored by Senators Jeff Golden and Michael Dembrow, and Representatives Courtney Neron, Maxine Dexter, Rob Nosse, Khanh Pham, Jules Walters, and Mark Gamba.
