

Submitter: Christopher Wagner

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2585

On HB 2585

I support this bill. Responsibility is a part of American citizenship. All American citizens who desire to vote should walk into their local DMV Office and fill out and turn in a voter registration form. Its as easy as picking up a pizza or a gallon of milk. There is no voter discrimination or deterrence in this process. The current process, however, floods the system with ballots including ballots sent to illegal aliens and people too apathetic to register on their own initiative. We now have voter distrust of the whole voting system because of the irregularities inherent in the current motor voter system.

Sincerely, Chris Wagner
