

Submitter: Charlotte Maloney

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB530

I'm a 73 year old retired occupational therapist who believes strongly in the principles of SB 530. I believe it is your duty as a legislator to learn all you can to develop policies to sequester and store carbon to do all we can to diminish droughts, wildfires, and killer heat waves. And to do all you can to pass this bill.

I support the leveraging of federal funding to assist our farmers, ranchers, and other rural residents in making the transition to a carbon free economy, as we all benefit from what the landowners can contribute to this effort.

Thank you for considering my comments,
Charlotte Maloney
