

Submitter: April Ann Fong

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5001

Please support the Oregon Advocacy Commissions Office fully. Their office supports 4 very important commissions that provide representation for very marginalized peoples. This commission could use even more funding, considering the important tasks of healing what has made people marginalized in this state. Without support from this office, the 4 commission groups would not be able to bring in unheard voices and will cause more damages. Thank you.
