SUPPORT SENATE BILL SB 542 Giving Oregonians the right to repair

Dear Chair Golden and Members of the Senate Committee on Environment and Natural Resources:

I have lived in Seaside Oregon for 18 years and I hate to throw anything away! And it is extremely difficult to repair things especially electronics for the very reason that no one can get parts from the manufacturer or a parts dealer. Case in point, I have an annoying problem my AC receiver right now that I will have to replace in the future because there are no parts available to my willing and able repairman. When I do replace it I will not be able to recycle it but will have to take it to Astoria and pay them to put it in a landfill.

This bill is a long time coming and I applaud you for bringing it to the Committee Hearing. Please I urge you to support every part of SB 542, giving Oregonians the right to repair.

I will follow what I hope will be a very successful outcome of SB 542.

I thank you.

Sincerely,

Nancy Holmes
