

Submitter: Dasia Star

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I am a therapist (Marriage and Family) working with queer and trans community in Portland. I have witnessed the deeply impactful harm and damage done by conversion therapy. The legacy of traumatization as a result of conversion therapy practices is monumental, and takes immense resources to undo (not everyone has access to these resources and no one should have to suffer the consequences of this kind of entirely avoidable harm).

Please support the passage of HB 2458.
