Measure: HB2994

As a mother of a deaf child I fully support this bill; having to jump through hoops just to get his cochlear implants covered by insurance was extremely stressful. It should be streamlined, it's hard enough to have a child that has other medical necessities much less worry if insurance will be able to cover the major needs of my child. I feel that all deaf/HOH people should have access to the tools they need to better their lives.
