Committee: Senate Committee On Health Care
Measure: SB704

SB 704 should be opposed!

This bill has a pre-determined outcome to pursue a state single-payor health plan based on assumptions of magical administrative savings that will drive providers from the state and everyone else with enormous tax increases to support this fantasy. The idea that the state will be successful at a complex entitlement program when they can't manage unemployment, over taxation, forest fires, education or the economy is irresponsible and absurd, especially in a time of inflation.

Through the years, the legislature has mandated coverages, which has driven the cost of insurance to be unaffordable for many. So they stepped in to solve the problem THEY made with a socialist universal coverage plan, taking away choice and forcing everyone to subject the care of their bodies to the government.

America is founded on choice and free will. Universal health care takes away our fundamental right to choose who cares for our bodies.

Oppose SB704!
