

Submitter: Lisa Marino

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2994

My granddaughter is 9 and has had severe hearing loss since birth. She requires hearing aids and will probably be deaf later in life. I think it's absolutely inhumane that this is Not covered. This is not something that is elective. She could not hear without her hearing aids and also requires frequent trips to the ENT. Her mom works very hard and has a hard time paying for this.

Sincerely Lisa Marino
