

Submitter: Nicole Chaisson

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3158

Please oppose any more taxes on small farms. This is non road equipment that is used on private properties. You are basically raising the cost of farming that will push out small farms and they will be sold to corporate farms. You will raise the cost of food for all Oregonians which in effect will affect the most our low income citizens. We offset our own carbon on my hay farm by being good stewards to our land. Can you say the same? Please Vote No on HB3158.
