

Submitter: Paula Wolf

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3223

I oppose HB 3223 because it:

Undermines and devalues the dental assisting profession, could reduce pay, opportunities and job satisfaction for dental assistants and will worsen the shortage of qualified providers.

This bill puts patient health and safety at risk and lowers the quality of patient care.

Please vote No on HB 3223.
