

Submitter: John Schirmer

On Behalf Of: Family Farm

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3158

If bill HB3158 passes it will hurt the great blue collar families, that have such a deep impact on the Oregon we love. Prices now for the fuels, tires, and equipment we need to survive are already higher than what they should be. Taxing the working people on the necessities we need to better our land, our crops, our buildings, and most importantly our families well being is wrong. I can't support a bill that will kill the American dreams, and families that keep this state from going backwards.
