Measure: SB679

Submitter: Lesley Orr

On Behalf Of: Rogue River Greenway Foundation

Committee: Senate Committee On Natural Resources Measure: SB679

I'm writing on behalf of the non-profit Rogue River Greenway Foundation, an organization dedicated to the development and construction of the Rogue River Recreational Corridor. We know the benefits of outdoor recreation and in turn we support all projects that increase and support these recreational opportunities. The Oregon Coast Trail is of immense value for what it provides for the local communities and the state's tourist industry. Investing in the further of the OCT in investing in the future of Oregon and Oregon's residents.

Please approve this bill and make the funds available for the future of the Oregon Coast Trail.
