

Submitter: Shanna Baeslwr

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3223

This bill is absolutely outrageous!!

It puts patient health and safety at risk, it lowers the quality of patient care and as a 18 year veteran in the dental assisting field it totally undermines and devalues the dental assisting profession in general. This will also worsen the shortage of qualified providers. Patients already have a fear of dentistry and radiation too, so to suggest they be in the care of people that have no clue what they are doing is abhorrent. Its disgusting and leads to a slippery slope 2 other professions . People deserve to have the best care with trained professional, not open heart surgery by an auto mechanic...this is disgraceful and a slap in the face to my career.
