Committee: House Committee On Climate, Energy, and Environment

Measure: HB3158

The bill will gut the agricultural and commercial capacity of Oregon and will accelerate the departure of the productive businesses and people of Oregon. These types of draconian measures make the fore mentioned endeavors will be the nail in the coffin of Oregon.

In the short term this political stunt may sound good in the eco chambers of the Portland establishment but it's a death blow to the greater state and eventually even the short sided decision makers pushing this agenda.
