

Submitter: Cammi Turnbow

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2107

Why on earth is Oregon Health Authority involved in voter registration?! And why is the Oregon Secretary of State submitting this?

Citizen's data is more and more a prized commodity of our government and non-elected officials.

It appears this is just another tool used for surveillance of the people.

I vehemently oppose HB 2107!
