

Submitter: Hayley Weed

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I support HB2458 as a social work associate, mental health care provider, and queer person. Conversion therapy is an abusive and inhumane practice with no social or mental health benefit. Being queer and trans is not something to "fix" or "cure." You have the opportunity to make Oregon a more safe place for queer people to be themselves. End conversion therapy now.
