

Submitter: Jann Bell

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2410

The addition of a swimming pool to the city of Ontario would greatly benefit the citizens of Malheur County. One specific benefit would be for the children to have access to swimming lessons and water safety experiences that would prevent loss of lives due to drowning accidents. There are many open irrigation ditches, streams, and other fast moving bodies of water in Malheur ccounty. A pool would provide opportunity for swimming skills to be offered to all members of the community
