

Submitter: Carol Foley

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB679

The full Oregon Coast Trail will be a significant asset to the State due to its length and the beauty of the area. The reputation of such a scenic opportunity will bring people from all over the state, and beyond, to see the wonders of the Coast. It will be an economic boon to towns that have struggled with commerce since the pandemic. People are seeking ways to be in nature, and this trail will provide physical and mental health. It will connect communities with a non-motorized option. Please approve funding to make this a reality.
