Measure: HB2410

As a mother of school age children and a long time member of the Ontario community, we desperately need our Aquatic Center to be open and functioning. There are so many benefits to having a local swimming pool and recreation center; water safety, senior citizen health, physical therapy, new jobs and most importantly something for our children, families and seniors to do. This community is lacking amenities and this would bring so much value to Ontario and the surrounding communities. I am in strong support of HB 2410 - issuance of lottery bonds for Ontario Community Recreation Center.
