Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2410

I would like to voice my wholehearted support for issuance of state lottery bonds for the Ontario Recreation Center.

As a former resident of Ontario and one who grew up with the former pool area in service, I recognize the vital importance of the recreation center to the well being of this community - for everyone, but especially the youth in the area. It's importance to maintaining and enhancing the fabric of the local community can not be overestimated.

Thank you for your consideration.
