

I am NEUTRAL on [SB 829]...

Southern Coos Hospital and Health Center provides great services for those that want to remain alive.

The \$250,000 dollars requested for Engineering Services needs to be explained in greater detail.

The Hospital's "expansion" needs to be fully detailed and discussed.

Will there be additional pleas for allocations from the GENERAL FUND, to pay for the "expansion?"

***What is the obligation(s) for the State of Oregon to take my tax dollars, out of my wallet, to fund the Southern Coos Hospital and Health Center; to facilitate the population growth and economic development of "parts" of Coos County?

Thanks Senator DB Smith!

David S. Wall
Mr. Oregon Concur.
