

I SUPPORT [HB 2804]...

I would like to "Thank" Representative SOSA and SEIU Local 503 for their efforts to investigate and enlighten us all just what is going on at The Department of Human Services (DHS). I've heard some wild tales about DHS.

The "Text of [HB 2804]" states, "SECTION 1. (1) Annually, the Department of Human Services shall use workload models to assess the workforce capacity and needs in each of the department's divisions...

...(2) Not later than February 1 of each year, the department shall report to the committees of the Legislative Assembly related to human services, in the manner provided in ORS 192.245, the results of the department's assessment conducted under subsection (1) of this section."

I'll bet those highly paid, well benefited government employees at (DHS) are sweatin'- bullets they've been found-out and the sweet-gig is up. Yes siree bob, they're sweatin' alright. With all that sweat a drippin' off them, one would think they all got the plague or were exhibiting the effects of the latest workplace salsa tasting competition.

DHS is known to have the "Hottest" salsa competitions this side of Hades but, I don't know for sure. I'll bet you the Legislature doesn't know either.

Just what "workload models" are going to be used and where is DHS going to get them?

How much are these "workload models" going to cost? I guess the cost of the "workload models" is much cheaper than leaving DHS to go it alone. God only knows what they'll report back. We need some "store-bought workload models" alright. I'm here to tell you, we've been snookered for way too long.

Now, just what is meant by "workforce capacity?" An employee named Mabel (that wasn't her real name-she was a fearful of being retaliated on so, she made one up) told us "workforce capacity" was determined on who you know and she hoped the SEIU would swoop in and do some whoop-up on some evenin' out of the chores, so the women folk would be equal to the men folk. Now days, it's gotten a lot harder to determine just who is a man and who is a woman and just who is in between and I'm not talking about three-sums.

Thank-you in again Representative SOSA and SEIU Local 503 for your efforts to find out if the taxpayers are getting their money's worth out of DHS or is DHS getting the taxpayer's money worth.

David S. Wall
Mr. Oregon Concurr..Man, that salsa is hot!
