

Submitter: Shauna McKain-Storey

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2215

This makes no sense. How can Oregon greenlight nuclear facilities without knowing where to dispose of the highly toxic waste they produce? Without a feasible and funded plan for safe waste disposal, nuclear energy is a dangerous and impractical energy option. Bills like this make me believe those backing nuclear power as an energy option want to take advantage of Oregonians, and just see what they can get away with!
