Measure: HB2601

As a parent and a grandparent, I support HB 2601. It's time to stop pouring Oregon's dollars into investments that support the fossil-fuels status quo, which currently has ice caps melting, sea levels rising, and is putting human communities at risk worldwide. We have to act now in order to protect our children's and grandchildren's future, by reducing our state, national, and global reliance on fossil fuels. Oregon has a chance to lead in this respect and as an Oregon voter and resident, I want to see that happen. Thank you.
